

TEPA 350 Building winches

TEPA 350 BUILDING WINCH

A real multi-tool. Easy to install, easy to move! For use with wire or rope.

- Lifting power 350 kg, speed 5 m/min
- Lifting power 100 kg, speed 12 m/min
- Driving engine: 2-speed
770W 40/25 Nm drilling machine

The drilling machine has a static and dynamic self-locking gearbox. The wire reel holds max 50 meters of 5 mm rope or wire. Rope reel and rope-lock for 10–12 mm rope.

TEPA 250 BUILDING WINCH

- Lifting power 250 kg, speed 7,5 m/min
- Driving engine: 0,25 kW 1-phase motor with brake and with a 2-speed gearbox.
- Remote control unit with 3 m cable and push-button controls up/down.
- Wire reel for 5 mm wire max 50 m

The winch is installed using quick connectors onto the SE300 winch support. To the winch support is a turning upper lifting arm also connected. The length of the lifting arm is 60 cm.
